

COVID-19 (CORONAVIRUS) CHURCHES' PLAN OF ACTION

At present, if a person who recently attended an event at a church is diagnosed with **COVID-19**, Public Health England (PHE) will need to contact all those who may have been in close contact with the affected person. The church officers may be asked to assist in identifying those people and telling them to contact their local PHE team for further advice.

Local PHE teams can be found by inputting the church or individual's post code at this link: www.gov.uk/health-protection-team

Anyone who may have been in contact with an infected person, who feels unwell and has a cough, high temperature or shortness of breath, should contact NHS 111. Do not go to a GP surgery, pharmacy or hospital.

Further advice on **COVID-19** can be found at the following websites:
www.gov.uk/guidance/coronavirus-covid-19-information-for-the-public
<https://111.nhs.uk/service/covid-19>
